ABOUT RONE

Touring throughout Europe, videos with the Creators Project, remixes driving clubs wild around the globe, tracks with John Stanier (Battles), The National and more coming soon... In 2013, Rone's musical universe expanded to include live shows, new mixes of genres and styles, collaborations and a lot of travelling, culminating in a sold out show at Paris' huge, prestigious Olympia concert venue. In 2014 it's goodbye Berlin - Rone has built a new studio in France to work on the follow-up to "*Tohu Bohu*", but there's a way to keep him in one place. After two tours in North America, he is ready to release his third album *Creatures* in February 2015.
